PROFESSIONAL SUMMARY

AI & Data Science student with hands-on experience in Generative AI, Machine Learning, Full Stack Development, and Data-driven applications. Skilled in developing AI-powered solutions using LLMs, LangChain, OpenAI API, Python, and ML frameworks. Experienced in building projects involving AI interview systems, scam detection, and web applications with strong problem-solving and programming skills. Passionate about exploring emerging AI technologies and creating innovative solutions.

EDUCATION

Dhanalakshmi Srinivasan Engineering College

B.Tech in Artificial Intelligence And Data Science
CGPA – 8.0

Sept 2023– May 2027
Perambalur, TamilNadu.

TECHNICAL SKILLS

- Python Programming
- Java Programming
- Machine Learning
- Natural language processing
- SQL
- Data Analysis
- statical analysis

TOOLS

- ChatGPT
- Google Gemini
- Microsoft Copilot
- GitHub Copilot

LIBRARIES

- LangChain
- OpenAI API
- LlamaIndex
- PyTorch

INTERSHIP EXPERIENCE

Web Development Intern | CodeBind Technologies, Chennai July 2025

- Developed a full-stack Online Shopping Website using HTML, CSS, JavaScript, PHP, and MySQL, focusing on responsive design, database management, and user/product data handling.

AI-ML Virtual Intern | EduSkills – AICTE & Google for Developers | Oct 2024 – Dec 2024

- Gained practical experience in Machine Learning, data preprocessing, model development, evaluation techniques, and predictive analytics for real-world AI applications.

PROJECT

AI Interview Project: Technologies:

- Generative AI, LangChain, OpenAI API, Python, Streamlit, LLMs – Developed an AI-powered interview platform for automated question generation and response analysis.

AI-Based Scam Detection:

- Technologies: Python, Machine Learning, Scikit-learn, Pandas, NumPy – Built an AI-driven scam detection system to identify and analyze fraudulent patterns.

Online Shopping Website: Technologies:

- HTML, CSS, JavaScript, PHP, MySQL – Developed a full-stack e-commerce platform with efficient product and user data management.

CERTIFICATIONS

- Cloud Computing Certification
- AI-ML Virtual Internship Certification – EduSkills | AICTE | Google for Developers
- Internet of Things (IoT) Certification
- Explore Generative AI Certification – Microsoft
- AI-Based Scam Detection Project Presentation Certificate
- Full Stack Development Certification
